

# 2020 VIRTUAL SKOLL WORLD FORUM WEEK

## Sharing our Learnings

# Skoll World Forum: Pre-COVID

## skoll world forum

ON SOCIAL ENTREPRENEURSHIP

- 3.5 days each April in Oxford, England
- 1,200 senior leaders in global social impact (by invitation)
- 3 plenaries, including annual Skoll Awards for Social Entrepreneurship
- 20-25 panel + workshop sessions
- Dinners, pub nights, music jams
- 60+ independently-organized Ecosystem Events

# Overview of #SkollGoesVirtual

---

The 2020 Virtual Skoll World Forum Week was an experiment in taking the Skoll World Forum **values, brand & platform** online. It was our largest, most globally diverse convening yet.

We asked our network to contribute, learn, and connect with each other via virtual Ecosystem Events. This **open-source approach** was a departure from a traditionally highly-curated Forum delegate base and program.

## By the Numbers:

- 1 Skoll Awards Ceremony
- 9 Skoll-hosted panels, workshops, meet ups
- 100 host organizations hosted 130 virtual Ecosystem Events
- 10,000+ participant log-ins from 130+ countries\*

*\*data capture still in progress*

# Elements We Focused on Delivering Virtually

## SKOLL AWARDS ANNOUNCEMENT

**Goals:** To celebrate and champion the 2020 Skoll Award for Social Entrepreneurship recipients

**Challenge:** Moving from a traditional awards ceremony in a performing-arts theatre to a digital/broadcast format. 4 weeks to execute.

**Approach:** “Live” broadcast included

- pre-recorded documentary videos
- self-captured acceptance speeches & arts performances
- tied together with a host who recorded at home

Distribution strategy emphasized influencers in network + media buys to extend reach

## OPEN-SOURCE SESSIONS: CONNECT + LEARN

**Goals:** To connect change leaders from across our network; foster learning and insights; create equitable platform for mutual support

**Challenge:** Moving from physical event space in Oxford with ~20 breakout sessions and ~60 independently-organized Ecosystem Events to virtual “home.” 3 weeks to execute.

**Approach:** Mobilized our network

- 90% of program curation and execution independently-organized by external orgs
- leaned into existing Ecosystem Event concept + tools

## 3-4 Weeks Out: Cancellation + Pivot

- Core team split into two: wind down of Oxford + spin up of Virtual Forum Week
- Reimagination of Awards ceremony; constant adjustments to plan to align with health policies
- Outreach to activate network: targeted @ grantees, delegates, partners to create and join virtual programming
- Repurposed Oxford Week Elements
  - Virtual Participation Tool-kit
  - Skoll.org Ecosystem Event submission form - to gather host & event information
  - Skoll.org Forum Week calendar – info / reg hub for 100+ virtual events across week

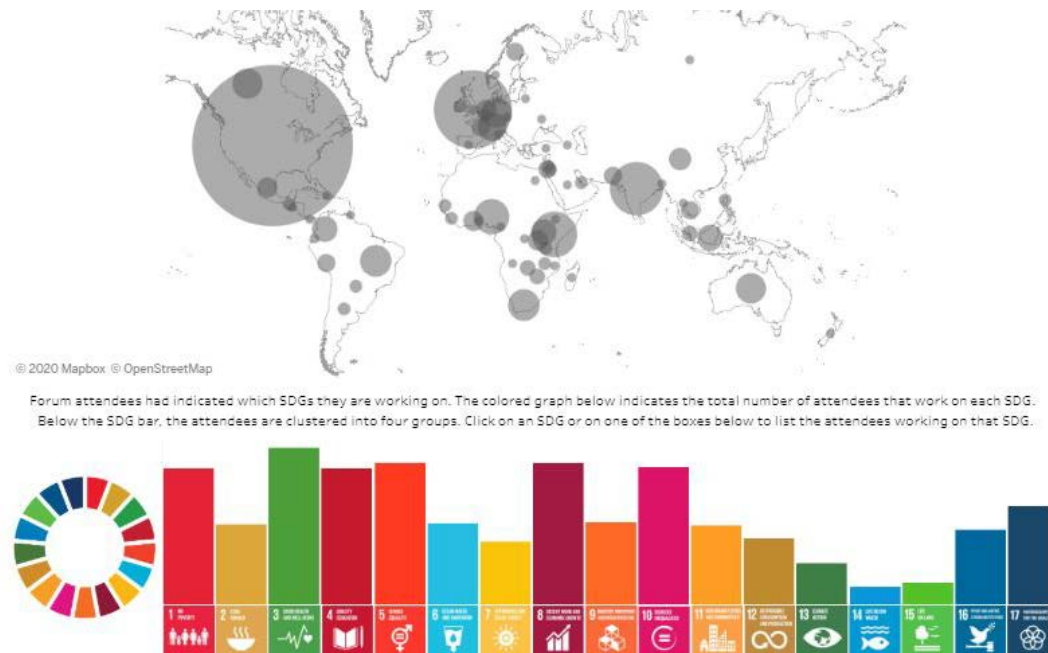

## 1-2 Weeks out: Added New Online Elements

- Live scribe illustrations to synthesize conversations & create connective tissue
- Braindate – pop up networking space
- Central google doc for session notes
- SDG / regional network map
- #SkollGoesVirtual (from #SkollWF)

## Up to & Ongoing through Virtual SWF:

- Outreach to network via newsletters, social media, and personal emails
- Review and publish submitted events
- Ongoing support, communication, toolkit updates to support Ecosystem Event hosts

British Summer Time

## First, Align on Goals & Comms Needs:

- Aligning first on goals for pivot created space for sub teams to run with ideas quickly
- Identifying activities we could stop doing opened bandwidth for new areas
- Constant changes to external situation required frequent internal team check-ins, and nimble comms and tech teams support
- Challenges:
  - Ongoing adjustments to plan = need to communicate with external audiences frequently
  - Team member bandwidth varied widely depending on home situation

## Lead with Your Values:

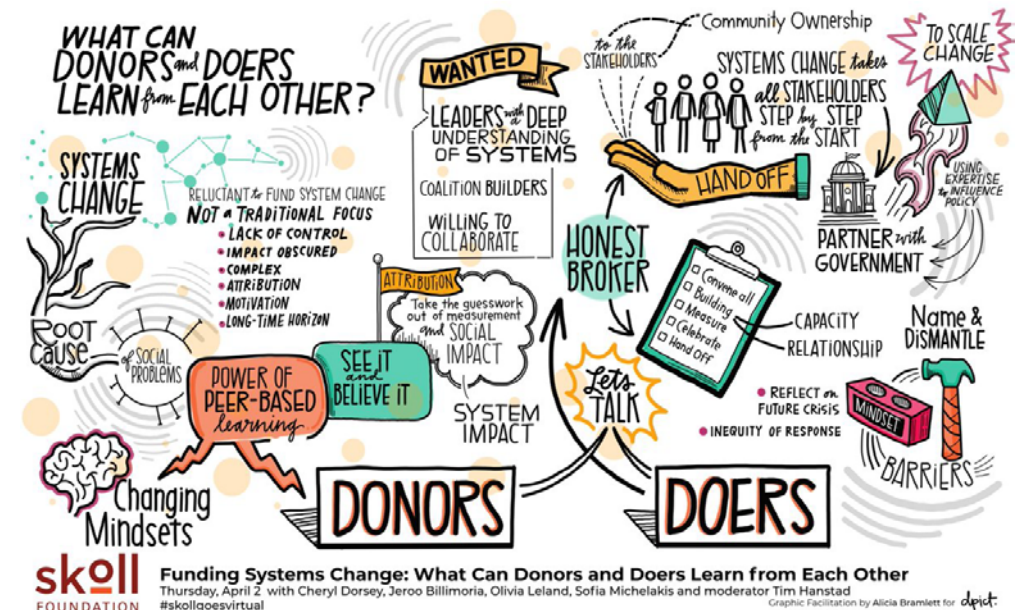

- Transparency with network was invaluable
- Expanding to be more inclusive, accessible (no financial, time, space, political barriers) = FAR more participants
- Trust in proximate leaders who delivered quality, diverse content = FAR more than we could alone
- Tactical challenges of decentralization:
  - Hard to find people without “central space” + missed serendipity of in-person event
  - Amount of content overwhelming, quality varied. Harder to elevate grantees.
  - No central tech platform
  - Zoombombers
  - Tech tools meant for an in-person event not always ideal for virtual

Getting into the Nitty Gritty

# Program Design Tips

- No matter the platform, find ways to make it engaging for audience
  - Activate audience early – use the chat box to ask where people are from, a word that describes how they're feeling, etc. Check in again throughout.
  - Allow participants to ask questions directly, or ensure you're crediting by name when you ask
  - Use collaborative tools – built in, or Sli.do; FunRetro, etc.
- Strong host/moderator to steer conversation
- Plan ahead with written run of show, identify questions for each speaker to avoid cross-talk
- Tons of resources out there for virtual program design, a few are [listed in our tool kit](#)

- We did not use a single cohesive platform for all events
- Skoll-hosted events utilized Zoom Meetings and Webinars
- Many platforms exist, Conveners.org has published research on the more robust options
- Avoid: Zoombombing

## VIRTUAL CONVENING TOOLS MATRIX

We cross-referenced key convening functions with some of the many tools and platforms being promoted for virtual convening these days...so you don't have to.

	KEYNOTE	PANEL FORMAT	LARGE GROUP (Q&A)	SMALL GROUP INTERACTION	STRUCTURED NETWORKING	SERENDIPITY	DEEP WORK	PARTICIPANT AGENCY
ZOOM	●	●	●	●	●		●	
MS TEAMS	●	●	●		●		●	
WEBEX	●	●	●					
HOPIN	●	●	●	●	●	●	●	●
PATHABLE	●	●	●	●	●	●	●	●
MAESTRO	●	●	●	●	●	●	●	●

## Zoom Meeting vs. Webinar

### Feature comparison

Feature	Meeting	Webinar
Participant roles	<ul style="list-style-type: none"><li>• Host and co-host</li><li>• Participant</li></ul>	<ul style="list-style-type: none"><li>• Host and co-host</li><li>• Panelist</li><li>• Attendee</li></ul>
Audio sharing	<ul style="list-style-type: none"><li>• All participants can mute/unmute their own audio</li><li>• Host can mute/request to unmute participants</li><li>• The Host can set all participants to mute upon entry</li></ul>	<ul style="list-style-type: none"><li>• Only the Host and panelists can mute/unmute their own audio</li><li>• Attendees join in listen-only mode*</li><li>• The Host can unmute one or more attendees</li></ul>
Video sharing	All participants	Hosts and panelists
Screen sharing	✓	✓

## How to stop trolls from taking over your Zoom call

*Zoombombing can be prevented, but it's not as easy as it should be*

# Creating Cohesion Across the Week

- We did not: provide a singular tech platform. The virtual “home” was a calendar.
- Skoll staff provided verbal welcome when possible on partner events
- Live visual scribes + overall virtual wall
- Centralized notes on sessions
- Wrap Up Video
